Description	
Game Name?	
Gun	
Game ID? (right click the game in the game list, properties, info tab)	
GUME52	
MD5 Hash? (right click the game in the game list, properties, info tab, MD5 Hash: Compute)	
[Put MD5 Hash here]	
What's the problem? Describe what went wrong.	
Hangs post publisher credit intro screen.	
What steps will reproduce the problem?	
Start title, skip intro video, get stuck on publisher credits.	
Is the issue present in the latest development version? For future reference, please also write down the version number of the latest development version.	
5.0-6004	
Is the issue present in the latest stable version?	
Unclear, last reported as working in 4.0-6484. Some issues with this boot screen and OpenGL were resolved in 4.0-4603. The particular screen seems to now display properly with all backends, but also hangs with them all.	
What are your PC specifications? (CPU, GPU, Operating System, more)	
i7-6700K, GeForce 970, Windows 10
