Relates to usability: No	Fixed in:
Description On Android I've encountered #10663 . I need to install IOS 36 to use Gecko OS. On Windows, I would use "Install WAD" to do this. Let me know if there's another way to do this. If not, I'll probably move my Android dolphin-emu folder to Windows, Install WAD there, and move it back to Android. Is the issue present in the latest development version? For future reference, please also write down the version number of the latest development version. 5.0-6177 What are your PC specifications? (CPU, GPU, Operating System, more) Samsung Galaxy Note8 (SM-N950U) Qualcomm Snapdragon 835 Octa-core (4x2.35 GHz Kryo & 4x1.9 GHz Kryo) Adreno 540 6GB RAM (LPDDR4) Baseband version N950USQS2BQK2 Kernel version 4.4.21 Android 7.1.1	

History

#1 - 01/12/2018 02:33 PM - JosJuice

- Issue type changed from Bug to Feature request
- Operating system Android added
- Operating system deleted (N/A)

#2 - 01/12/2018 08:19 PM - Helios

- Easy changed from No to Yes

#3 - 12/26/2018 10:18 AM - JMC4789

- Assignee set to billygoat
- Status changed from New to Accepted

Assigning to billygoat for further review.
