This isn't an easy issue, because it's not clear what we could change it to that's better.

Region would be an easy thing to change it to. Nice and nonspecific!

#4 - 04/28/2018 09:55 PM - JosJuice

The problem with the word region is that it usually refers to the three or four regions used for region lockout, and that's not what this field is about.

Europe is my favorite country.

Maybe change it to "Country / Region"?
