<b>Description</b>	
<b>What's the problem? Describe what went wrong.</b>	
None of the controls for Emulated Wii Remote 1 are mapped if Dolphin is launched for the first time using DolphinQt2. This does not happen if the first launch is done with DolphinWX.	
<b>What steps will reproduce the problem?</b>	
Make sure that there is no existing user folder. Then, launch DolphinQt2. You will now be able to see that there are no mappings, even if you launch DolphinWX afterwards.	
<b>What are your PC specifications? (CPU, GPU, Operating System, more)</b>
