Description	
What's the problem? Describe what went wrong.	
Occurs with game-specific settings only. Original post: https://github.com/dolphin-emu/dolphin/pull/8941#pullrequestreview-464696062	
What steps will reproduce the problem?	
<ol style="list-style-type: none">1. Clear Game Settings for your chosen game.2. Emulate "Wii Remote 1" and change the extension.3. Save settings.4. Return to the "Wii Remote 1" submenu and note that the previously changed extension is correctly displayed.5. Press back6. Emulate "Wii Remote 2"7. Note that the extension is incorrectly displayed as the same extension as "Wii Remote 1"8. Changing the "Wii Remote 2" extension or backing out of game-specific settings will cause the correct extension to be displayed again.	
Is the issue present in the latest development version? For future reference, please also write down the version number of the latest development version.	
5.0-12424	
What are your PC specifications? (CPU, GPU, Operating System, more)	
Samsung Galaxy Note8 (SM-N950U) Qualcomm Snapdragon 835 Octa-core (4x2.35 GHz Kryo & 4x1.9 GHz Kryo) Adreno 540 6GB RAM (LPDDR4) Android 9 OpenGL ES 3.2 V@331.0

I would assume that this is caused by not unloading the profile for Wii Remote 1 before loading the profile for Wii Remote 2 in the case where the profile for Wii Remote 2 doesn't have a value set for the extension.

#2 - 10/20/2020 05:50 PM - JosJuice
