#### Description

Game Name?  
Jimmy Neutron Boy Genius

Game ID?  
GJNE78

What's the problem? Describe what went wrong in few words.  
Requires XFB Real to display video.

What did you expect to happen instead?  
XFB Real to be automatically enabled, or video to work without XFB Real.

What steps will reproduce the problem?  
1. Start game  
2. Observe black screen with video audio playing

Dolphin 3.5 and 3.5-367 are old versions of Dolphin that have known issues and bugs, so don't report issues about them and test the latest Dolphin version first.  
Which versions of Dolphin did you test on?  
4.0-5295

Does using an older version of Dolphin solve your issue? If yes, which versions of Dolphin used to work?  
Unclear, but until recently Dolphin used to hang with this game.

What are your PC specifications? (including, but not limited to: Operating System, CPU and GPU)  
Windows 7 x64, Intel Core i7-960, nVidia GeForce 580

Is there any other relevant information? (e.g. logs, screenshots, configuration files)

AYY, IT'S TIME FOR THE REALXFB TRAAAAAIN

**#2 - 02/09/2015 12:39 PM - kostamarino**

Well, i will wait a bit to see what will happen with [issue 8125](#), hopefully a better solution will be implemented than forcing real xfb in every such game and instead force hybrid.

**#3 - 02/10/2015 01:16 AM - magumagu9**

You mean [issue 8195](#).

**#4 - 02/12/2015 10:40 AM - phire**

Might as well force real xfb.

Then if [issue 8195](#) is fixed you can just find/replace real xfb with hybrid xfb in all ini files.

**#5 - 12/06/2017 10:48 AM - kolano**

Corrected with Hybrid XFB.

**#6 - 12/06/2017 04:37 PM - JosJuice**
