

Infrastructure - Issue #9256

Support Oauth or Openid for this site.

01/12/2016 10:45 PM - ytrezq

Status: New	% Done: 0%
Priority: Normal

Category:	
Target version:	
Description The switch from google code required building a new tracker site. This added a "one new password to memorise" whereas everything was on the same site before. So please consider Oauth or Openid as authentication method for the bug tracker.
